Automated Proofreading Solutions

Global Vision Wins Start-IT Top 50 Technology Award

Montreal, Canada. December 6th, 2007 – Global Vision's Docu-Proof, an automated text comparator, is the winner of Start-IT's Top 50 Technologies Award. The award honors solutions that help companies in manufacturing industries improve their business efficiencies. Global Vision's technology is designed to inspect artwork and documents ensuring complete content integrity of all critical files.

"We are very pleased to accept this award. We continuously strive to offer our customers the most unique and cutting edge solutions that will help make a difference in their businesses," says Reuben Malz, Global Vision's President. According to Peggy Smedley, editorial director for START-IT, the winner selection was based on technology innovation, the ability to enhance revenue opportunities and improve business practices.

Docu-Proof, the winning technology, is a text comparator that has the capability to detect all changes in documents regardless of layout or format including the inspection of Braille. Docu-Proof dramatically eases the challenges professionals face when managing and ensuring the accuracy of their critical documents. It enables the user to manage text and guarantee accuracy and quality.
