

# Scan-TVS / TVS Proof-Reader

The Hardcopy Inspector

## Technical Specifications

### Overview

Need a way to inspect printed items? By simply using Global Vision's camera or scanner inspection technology, you can now check your hardcopy materials before and after it goes to press. This technology easily verifies differences from the customer's proof to the first print out. It will also ensure complete quality control by verifying random pieces while on the press or after the job.

### Speed & Size

Max size: 35" x 45"  
70% faster than manual checks

### Typical Applications

QA/QC  
Pre-Press  
Print
