iCOUNT: Counting has never been easier

iCOUNT HIGHLIGHTS

- 400 counts in 1 pass
- Validated system
- 500% increase in productivity
- Counts in 1/30th of a second
- Reporting features available

If exact and certified counting is critical in your operation, make sure you get the right count each and every time with Global Vision's iCOUNT.

iCOUNT is an automated counting workstation designed specifically for non-contact counting of folded products.

It is becoming increasingly important to ensure quality and productivity. With Global Vision's validated iCOUNT all counts can be performed in the blink of an eye and with an increase in productivity of 500%.
