

Barproof Barcode Inspection

Verify, decode, and grade barcodes.

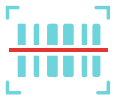

Benefits

Make sure you have the right barcodes

Avoid costly product recalls and the liabilities they can cause.

Verify barcode functionality

Check all barcodes in your packaging, even with digital artwork files.

Features

Grade all barcode types

Verify and decode 1D and 2D barcodes. Grade all barcodes according to standards such as CEN/ANSI/ISO.

Bar width measurement

By verifying values in files, you can be assured that barcodes will achieve the expected quality levels.

Pass/fail reporting

Barcodes are color coded depending on their grade.
