

# GlobalVision | Count Verifier

Automatic counting of inserts, outserts, cartons and other printed components

The GlobalVision Count Verifier is the leading counting tool for production environments. Built for printers and packaging professionals, the Count Verifier is designed to instantly count inserts, outserts and cartons in a tray.

## Benefits

- ❑ Replace manual counting.
- ❑ Consistent counting accuracy.
- ❑ Counts your printed components in single or multi-rows.
- ❑ No physical contact.
- ❑ Live view allows you to see exactly what the Count Verifier is seeing.
- ❑ No implementation required.
